FROM THE EXECUTIVE SECRETARY'S DESK

Please forgive me for the condition of the last issue of the Seed Pod. I realize that there were a lot of errors. Last issue was rather a hectic issue. We will try to do better.

A letter has been received from a gentlemen, in Malaya. He has since joined the Society. He has made a request for seed. Seems he has no way to graft but is interested in better varieties. If any of our members have seed that we could send please forward same to me and I'll pass them on to him.

If any of you would like to locate a special (old or lost) variety why not drop us a line? We can start a wanted section of the Seed Pod.

Don't forget the Board Meeting on February 21st and also the Hibiscus Show and Display at the Florida State Fair at Tampa on February 5th thru 13th. The show is scheduled for Saturday, February 6th.

We need more ads. Thanks for your help this time.

Hope your Hibiscus come thru the cold weather in good shape.

Bye now,

Jimmie

We're funny floks. We raise heck for more rigid speed laws, but will not buy a car unless it will do 100 per.
